

Director Development Mentors

The AKRI Director Development Committee has reached out to as many individuals as we could locate who have experience directing group relations conferences. Our purpose is to develop a resource for the mentoring of new directors or those with limited directing experience who would like consultation for themselves about taking up that role.

This list will be updated periodically. The mentors who have responded to this invitation are listed below. It will be up to you and the individual mentor to negotiate the scope of your work and the extent of your consultation with one another.

For contact information please log in to the AKRI website and visit the Membership Directory (found under the "Member Menu" tab). Alternatively, please email admin@akriceinstitute.org for contact information. Feel free to contact members of this committee with your questions or if you would like help contacting a mentor.

Thanks to everyone for their involvement in creating the future of AKRI.
